### The Soul of Money

Are you surviving or thriving? What is your personal relationship with money? Do you feel empowered, or greedy, helpless and frustrated with money? What is the essence of money, does it have a soul?

To answer some of these questions, we will adventure into subtle realms and explore the thoughts, beliefs, emotions and action that either magnetize or repel money in your life. Whether you are an artist, healer, teacher, scientist or business being, you have a very unique relationship with money. Money is energy, money is a currency of exchange, money is an indicator of our thrive-ability in a western modern society. Through circles, dialogues, audio, video, contemplation, guided meditation and journaling, you will learn practical tools to interact with the soul of money and learn to re-direct your energy such that you can magnetize money to your life.

### Spirit and Technology

What is the relationship between spirit and technology? Can technology be infused with spirit? Can spirit harness the power of technology? How do both essences serve your personal work in the 21st century? Your spirit has chosen this time and place to express its highest gifts. California is one of the most innovative progressive creative vortexes on the planet. Are you harnessing the energy this region is offering you? Do you care what Intel, Google, Facebook, Apple or Paypal are up to? Whether you are an artist, healer, teacher, scientist or business being, you have a very unique relationship with technology. Technology is matter intelligently infused with spirit. Through circles, dialogues, audio, video, contemplation, guided meditation and journaling, you will learn practical tools to harness the essence of technology to empower your personal and professional expression.

### Conscious Business

Do you work for a large corporation or for a nonprofit? Do work for yourself or in partnership? Do businesses have a soul print? Conscious businesses recognize themselves as a living organism operating within an interconnected network of systems. When your business is conscious - your vision, mission, products, services, relationships and almost everything you touch is naturally designed to bring the highest value, care and thrive-ability to all systems. Our class will explore the 3P's: paradigms, principles and practices for a whole awakening (whole person, whole business, whole world). We will review case studies of conscious companies and leverage audio, video, visualization, and contemplation, to give you direct experiences of systems thinking and business DNA. Join us and learn how you can create and sustain a profitable conscious business.
